

# Learning Sight Words (Word Wall Words)

Each week in first grade, we learn five new sight words. Many of the sight words cannot be “sounded out” and they need to be learned by “sight”. Because recognizing these words is so important during reading, using a variety of activities to teach, practice and memorize the words is critical in teaching children to read. Try using these activities to help your child learn and practice sight words at home:

## Multi-sensory ways to learn and practice sight words:

- Have your child write sight words on a dry erase board
- Have your child write sight words with wikki stix
- Have your child write sight words with playdoh
- Squirt shaving cream on a plate or table. Spread the cream. Have your child write the sight words in the shaving cream.
- Jump, hop, clap, or tap out the letters of the sight word (t-h-e “the”).

## Sight word games:

- Make sight word flashcards on 3 x 5 index cards and place them on a ring. Short and frequent practice with naming the words works better than longer sessions. Try reviewing the cards at various times throughout the day.

- Draw a star on the back of a  $3 \times 5$  index card. Place this card and the flashcards face down on the table. Take turns turning over a card and reading the words. Try to be the player who finds the card with a star.
- Play “Slap Jack” with the sight word and star cards. When the star card is turned over, the first player to slap it wins.
- Make duplicates of the sight word cards and play the memory game.
- Make several  $5 \times 5$  grids and put sight words in the squares. Make your own chips with the words written on them. Play bingo.
- Write the sight words on sticky notes and place them on a wall. Turn down the lights and give your child a flashlight. Have your child shine the light on the words and read each word.
